Subject: Proposed Rainfall and Flow Monitoring Program for Lancaster

Donna: Attached is a proposed rainfall and flow monitoring program for the City of Lancaster. I assume that you'll forward this out to the rest of your team – if you want me to do that, just let me know. We don't expect that you all will be able to review and have questions on the program by our meeting tomorrow, but we will be prepared to discuss it if you would like. And if we have time – obviously, the decree issues and your GI questions will have a greater priority. We look forward to seeing you tomorrow – if you have any questions before then, of course, just let me know. I am currently travelling, but generally available on the cell and checking e-mail. Thanks.
